SANJAY KRISHNAN M M

Kozhikode, Kerala | +91-6238180041 | sanjaykrnmm435@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in **Python**, **Django**, **React**, and **SQL** databases (PostgreSQL, MySQL, SQLite). Built three web applications; skilled in developing responsive front ends, RESTful APIs with Django REST Framework, JWT / OAuth authentication, role-based access control, and secure backend systems. Experienced with Celery and Redis for background tasks, and with deployment on AWS, Render, and Vercel using Docker. Uses AI-assisted development tools such as **Cursor AI** and **Emergent AI** to speed up prototyping, debugging, and delivery. Seeking a **Full-Stack or Backend Developer** role.

CORE TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Python, Django, Django REST Framework (DRF), REST API Development, JWT / OAuth Authentication, Role-Based Access Control, Celery, Redis

Databases: PostgreSQL, MySQL, SQLite

AI-Assisted Development: Cursor AI, Emergent AI

Cloud & Deployment: AWS, Docker, Render, Vercel, PythonAnywhere

Tools: Git, GitHub, Postman, Figma, Spline

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Intern | Softroniics *Oct 2024 – Present*

- Developed full-stack web applications using Python, Django, React, HTML, CSS, and SQL databases.
- Built and tested RESTful APIs using Django REST Framework, with JWT / OAuth authentication and user preference features; tested endpoints using Postman.
- Implemented background task processing using Celery and Redis.
- Worked with PostgreSQL, MySQL, and SQLite for database design and management.
- Used Cursor AI for AI-assisted coding, debugging, and refactoring, and Emergent AI to prototype and generate application features from natural-language prompts.
- Containerized and deployed applications using Docker on AWS, Render, and Vercel; managed version control and collaboration using Git and GitHub.
- Applied data structures and algorithms (DSA), DBMS concepts, and clean coding practices.

Intern | Prominent *Jul 2023 – Aug 2023*

- Assisted in design, testing, and quality control of electrical components.

Intern | Bharat Sanchar Nigam Limited (BSNL) *May 2023 – Jun 2023*

- Gained hands-on experience in telecommunications and network management.

PROJECT HIGHLIGHTS

Skill Connect – Skill Sharing Platform *2025*

Tech: Python, Django, React.js, SQLite

- Built a platform for skill sharing and learning.
- Implemented authentication, profiles, and a responsive UI.

Crime Line – Online Crime Reporting System *2024*

Tech: Python, Django, HTML, CSS, Bootstrap, SQLite

- Developed an online crime reporting and tracking system.
- Implemented role-based access control (RBAC) and built an admin dashboard.
- Focused on data security and structured database design.

Fragranzia – Perfume E-Commerce Website *2024*

Tech: React.js, Tailwind CSS, JavaScript

- Designed a modern e-commerce UI with cart and checkout flow.
- Built reusable React components for scalability.
- Implemented responsive design using Tailwind CSS.

Sewer Patrol Robot *2024*

Tech: Embedded C, Microcontroller, Sensors

- Created a robotic system for sewer inspection, reducing human exposure to hazardous environments.

IoT-Based Temperature Controlled Smart Fan *2023*

Tech: Embedded C, NodeMCU, Sensors

- Automated fan speed based on ambient temperature, improving energy efficiency through sensor integration.

ACADEMIC CREDENTIALS

Bachelor of Technology (B.Tech) – Electronics & Communication Engineering *2024*

M Dasan Institute of Technology, Kozhikode

CERTIFICATION

Python Django Full Stack Development – Softroniics
